PROFESSIONAL SUMMARY

Software Engineer specializing in full-stack MERN development and Java Spring Boot Microservices, with hands-on experience building event-driven, containerized systems using Apache Kafka, gRPC, and Docker. Proven ability to architect and deploy scalable cloud-native applications on AWS Lambda, optimize frontend performance to a 92 PageSpeed score, and validate backend reliability through k6 load testing at 99.9% success rate. Committed to writing clean, maintainable code using SOLID principles and OOP within agile environments.

SKILLS

Languages & Core Tech — JavaScript (ES6+), HTML5, CSS3, JAVA (Core)

Frontend — React.js, Redux Toolkit, Tailwind CSS

Backend & Architecture — Spring boot, Microservices, Node.js, Express.js, REST APIs, JWT Authentication, PostgreSQL, MongoDB

DevOps & Tools(Cloud) — Docker, AWS Lambda, Netlify, Render, Cloudinary

Engineering Concepts — Data Structures And Algorithm **(DSA)**, Object-Oriented Programming **(OOP)**

Performance & Testing Tools — Lighthouse, PageSpeed Insights, k6 (Load Testing), Git, GitHub, Postman

PROJECTS

Full-Stack Video Streaming Platform

- **Developed** a scalable MERN backend on **AWS Lambda** using secure **JWT/HttpOnly cookies** and managed global state with **Redux Toolkit**.
- **Optimized** frontend performance to achieve a **92 PageSpeed score** and **0ms Total Blocking Time** through custom **Vite chunking** and **Cloudinary** media transformations.
- **Improved** mobile user experience by reducing **Largest Contentful Paint (LCP) to 2.7s** using preconnect resource hints and optimized asset delivery.
- **Tested** backend reliability using **k6**, maintaining a **99.9% success rate** and **179ms average latency** during concurrent load for 10+ virtual users.
- **Managed** database connections effectively by implementing **MongoDB connection pooling** with maxPoolSize to ensure stability on serverless infrastructure.
- **Built** a responsive UI using **Tailwind CSS** with optimistic updates, achieving a **100 Lighthouse SEO score**.

Tech Stack: AWS Lambda, MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Tailwind CSS, Cloudinary

Patient Management System (Microservices)

- **Developed** a core Patient Microservice using **Java** and **Spring Boot** to manage patient lifecycles through full **CRUD operations**.
- **Architected** the service using a **Microservices** approach, ensuring modularity and loose coupling for future service integrations.
- **Containerized** the microservice and **PostgreSQL** database using **Docker**, creating custom images to ensure a consistenta development-to-production environment.
- **Designed** a relational schema in **PostgreSQL** to maintain data integrity and persistence for critical patient information.
- **Designed** with a forward-looking architecture to support future integrations of **gRPC** for high-performance inter-service communication and **AWS** for cloud-native deployment.

WORK EXPERIENCE

06/2023 – 09/2023
Nagpur, India

Web Development Intern, Eduladdr Solutions

- Developed **3 core web pages** from scratch using **HTML5 and CSS3**, ensuring **fully responsive layouts for mobile and desktop** views.
- **Refactored and modernized** the frontend of existing legacy pages, **correcting alignment issues and improving visual consistency** across the application.

10/2022 – 01/2023
Remote

Web Designer Intern, DocTunes AudioTech Pvt.Ltd

- Translated **Figma** designs into **reusable UI components** (Navbars, Cards, Forms), strictly **adhering to brand color schemes** and typography standards.
- Managed code versions using **Git**, ensuring clean commit history and seamless integration of frontend updates into the main repository.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering | 2021 - 2025, Anjuman College of Engineering & Technology | Nagpur

CERTIFICATES

- Full Stack Development
- Cracking the Code: Data Structures and Algorithms (DSA)
- Mastering Node.js, Express.js and MongoDB

AWARDS

YoungTurks Competition 2025, Naukri

Codequezt # 23 Coding Challenge, Naukri
